It's ok

By Cammie Owens

It's inspiring, however it lacks a lot in the way of texts for just simple flirting without looking pathetic or needy. There needs to be another book with messages that are more simple that can inspire conversation or interest, thank the guy for a date, just say you were thinking about him, talk about some feature you like about him, just simple flirty stuff.

He loves it!

By Jessie Heart

I sent my boyfriend some cute text messages the other day, and to my surprise, he LOVES it! Now we do text messages back and forth more often and it's fun. We feel more bonded because of this too. Recommended!

I thought this book would also be good for my sister. Everybody needs a little help expressing what their feeling into words. She is starting to date again, and this could really help her with her confidence.
