Great!

By Anne from Baltimore

This curriculum has worked really well for my daughter this year for first grade as a homeschooler. This book has a reading support assignment for each lesson in the textbook. The worksheets have really reinforced what my daughter has learned about in the text. If you want to use this curriculum for first grade, then I would recommend purchasing the text, this book, and the assessment book (if you want to give the tests). This book and the text really are enough to do the basic curriculum. There is also a teacher resource and a lab book, but we haven't used either this year. At the beginning of the year, I also helped her by answering the questions and writing some of the answers until her handwriting got better (we would discuss them and I would record her answers). The text is wonderful and easy for both parent and student to understand. No answer key is needed. I have the teacher's guides and haven't used them at all this year.
