Book for beginners

By Tori

It is a great book to start. I did use fiverr before for gigs. Khan tells how to search recent gigs to get idea of top freelance work in demand.

0 of 0 people found the following review helpful.

This is a great story of how a beginner

By Carina Lee

This is a great story of how a beginner, Hassam, got started with making money online and then later finds success with Fiverr. The story is short, but interesting. More importantly, it describes how Hassam came up with his first successful gig. The book also includes a six-step formula for success.

I really enjoyed the book and I like how the author included links to Hassam's facebook profile and a huge photo of the guy. It's kind of funny but it also makes the book more personal. I was also able to find Hassam's gigs and the guy really seems to be doing well.

0 of 0 people found the following review helpful.

and it's an amazing success story

By Celestial

The title really sparked my interest, and it's an amazing success story, but it's so short that you might think you're getting more out of the book about how to earn more on Fiverr. That's not what this book contains though. Overall I would say it's a fun story to read and the writer connects with the audience.
