Learn the authentic leadership skills that drive today's workforce to excel

Ignite: Real Leadership, Real Talk, Real Results is an honest guide to achieving lasting business success by becoming a more authentic leader. Leaving behind the boring and mundane, this guide cuts to the chase with a frank and forthright style to provide insight that can radically transform your business. You'll learn how your communication style may be holding you back, and how a few simple changes can inspire your team, engage your customers, and remind you just how effective you can be. Storytelling is a powerful business tool, and this book shows how to find your own stories and dig deep to learn what's driving your leadership and motivating your diverse workforce. You'll successfully navigate the uncertain terrain brought about by mixed generational expectations, evolving technology, and a rapidly shifting culture as you learn to respond and adapt to become a more effective leader.

Communication is everything, and leaders are expected to be "on message" at all times. Today's workers want to know the "why" behind the "what", and this guide shows you how to tailor your message and your entire communication style to have the biggest impact.

- Cut through the "boring" and "bull" and be real
- Communicate with impact across all platforms
- Ignite your teams, your customers, and yourself
- Level up, step out, and discover what you stand for

The rapid rise of technology and social media has resulted in "information fatigue", and most leaders respond by communicating in logic and data. This approach has little impact on the shifting workforce demographics, and each new generation brings higher expectations from their employers and leaders. Ignite shows you how to exceed those expectations and become the authentic leader that drives today's business success.

The real thing

By Patricia McMillan

I love this book. Gabrielle Dolan invites us to be real in life and in leadership, and she models this on every page. The book reads like a conversation with a wise friend. A wise friend who tells it like it is and has lots of funny anecdotes.

Although it is much more than a book on storytelling and presentation skills, it has some of the best advice I've seen on these topics, and as a storyteller myself, believe me I read a lot of books on storytelling and presentation skills. Dolan's tips on using push and pull stories on the organisational story grapevine, and on preparing a presentation, are gold.

Ignite is my new go-to reference for leadership and communication.

A friendly tour of straight talking for leaders

By Zoe E. Routh

Garbielle gives us some excellent exercises to get clear on who we are, what matters to us, and the stories to convey this. The pages of my copy are folded and marked so I can refer to the exercises and work my way through in crafting some signature stories. She has 'levelling up', asking for more and getting clear on our priorities, as well as mining the depths of our experience to come up with stories that will help others shift their perception.

Gabrielle's style is relaxed and personable, like getting some awesome tips from a mate over a glass of red wine.

By Tracey Robinson

Ignite – A completely refreshing approach to leadership and presenting.

Fact based, to the point with touch of humour providing an enjoyable reading experience.

Ignite emphasises the importance of authentic leadership and demonstrates the effectiveness of storytelling to engage your audience. Bound to challenge the redundant presentation methods saturating today's corporate environments. Hands down an exceptional read with no beating around the bush!
