WORTHY OF A RE-RELEASE

By Buggy

This is one of the better early Brockmann romances I've read. (Shame about the cover though) Written in 97, this one really is worthy of a re-release because there's an excellent suspense filled story here that managed to surprise me several times by not following the usual cookie cutter formula required of category romances, I never really knew where this was going to go; with events setting up in one direction only to end up going a very different way. And with several steamy love scenes, a tortured hero I just wanted to hug and a heroine that was well... normal (meaning that she didn't 'suddenly' know how to use a gun, or annoy me with stupid talk and the usual quarrels) I had trouble putting this one down. When Brockmann's on her game there's just no one better and this quick romantic suspense gave me everything I could possibly want.

FBI agent John Miller is known throughout the department as "the robot". Still reeling from the death of his partner which he blames himself for, John is unable to sleep or eat, just barely going through the motions of living. When he's sent undercover to catch a black widow serial killer, John actually resembles the hollow, sickly cancer patient he's meant to be.

The plan is for "Johnathan Mills" to appear wealthy, in bad health and to marry their suspect Serena Westford, gathering enough evidence to take her down before she murders another husband. The plan however is not for John to fall in love with her best friend Mariah Robinson. Somehow though she's made him feel alive for the first time in years and even though he knows he's sending her mixed signals (that kiss was probably a mistake as was falling asleep on her couch after a back rub) he can't blow his cover. For as much as he wants Mariah he's going to have to follow through and marry and sleep with Serena.

As I said the story here is not as straightforward as I first thought; the antagonist is always one step ahead of the FBI and as it turns out Mariah Carver is not who she seems to be either. Oh and our strong, manly hero cries at the end which just did me in. Cheers.

Disappointing

By WindRider

I was disappointed with this book. It had really good potential and it just didn't seem to hit the mark. Yes, the main characters were interesting with John being regarded as "The Robot" by those in the FBI. Okay that was a good start and Mariah was a kind hearted, driven woman learning to relax. That was a good start too but the romance? Not so good, kind of unbelievable. It began to feel like there were a lot of holes in the story and some really dumb moves on the part of the so called professional agency. The undercover idea was something that I found hard to believe would get approved by people in authority over John.

I was hoping for more from the story.

3.5 stars

By D. K. Stokes

This is a pretty good category romance about an FBI agent undercover to catch a black-widow serial killer (woman who marries men for their money & kills them to inherit) and a workaholic woman vacationing under an assumed name.

There are some dropped threads, possibly due to length restrictions, but not a bad read.
