Great for medical reimbursement!

By zoineos

Getting paid by medical or insurance providers requires very behaviorally focused writing, and this book provides it! I LOVE this series and recommend to everyone (especially new clinicians/trainees). I HIGHLY recommend it! Tons of examples that you can modify and use in your own prog notes.

Very helpful

By Juelsy

This has helped to reduce my note writing time significantly. I bought a copy for Kindle and it did not do justice to the book. It is really really helpful.

Saves a lot of valuable time

By Jules

This book helps me save time on paper work and billing for Medi-cal in my work as a high school counselor. I can use this time to focus more on what really matters: the clients! Not only does it help me structure my progress notes, but it gives me ideas for interventions that I might not otherwise have thought of. I have recommended this to several other MFT friends.
