Marvelous book

By La Contessa

Marvelous book with a hokey title. The information on

relationships in this book can, if applied, help transform your

life to the good - permanently. It's compatible with all

religious and spiritual traditions. I've been recommending this

and other Vernon Howard books such as 50 Ways to See Thru
People, for nearly 30 years now. They are a "must" for
everyone who wants to learn to see through the ways of the
world and transcend them, who wants to apply spiritual
awareness in everyday life, who wants to make a positive
difference in the world.

Everyone should read

By Smartgirl

I was at my OLD, small local library and came across this book. It has changed my life IMMENSELY. So I bought 3 copies from Amazon, one for me to keep and two to share with friends. I was raised Christian, but I am not religious- more spiritual. While the title seems a little out there, as soon as you start reading it, you get drawn in by the easy to read, common sense language. It is mildly New Age, but not something that Christians would run from. I believe in my abilities to take in what's useful and ignore the things that might not agree with my beliefs. But what I did realize while reading this book is just how closed minded we are taught to be in the church, and how much better off we would be if we would give things a chance. After reading this book, I am a much happier person, and MUCH less stressed. At first it was a conscious effort, and then it just came naturally. The book is NOT about religion, but about how our minds hold everything we need in order to live a happy, content life. And it is achievable for EVERYONE. It makes so much sense...
