THE PREZ BY DAVID SPITERI PDF

The true story of forty years inside one of Australia's first outlaw motorcycle clubs as told by its one-time president. With previously unrevealed insights into the outlaw world of extreme violence, drugs, corruption, sex, treachery and retribution. All names have been changed, and identities and events obscured. This is the only way the story could be told. 'this story is a true account of the birth of outlaw motorcycle clubs in Australia. there was no template for us, it just evolved. It shows our simple creed: loyalty to the club and respect for your brothers.' David Spiteri was a founding member and long-time President of one of Australia's first outlaw motorcycle clubs from its inception in the early 1960s through to the early 2000s. He has been uniquely placed to witness the clubs develop from loose affiliations of riders to the well structured and well connected groups we see today, with links to police, politicians and lawyers. In this never-before-told inside story, Spiteri puts himself at risk to reveal everything from the drug trafficking which funds the clubs' operations to the extreme violence that continues to make them infamous. For the first time, the true extent of the clubs' corruption will be exposed, and the treachery and subsequent retribution enforced by their own brand of law known as 'the code' is brought to light. A truly shocking and compelling look at a fascinating subculture.

Fiction or History

By Victor Preacher Shurtz

The bike world in Australia has always been explosive. Their attitude is well served seeing as their lineage came from convicts sent down under from England. How can they not have an attitude? There were the outlaws from society cast aside to a place far from the eyes of social acceptance. Yes, they have an attitude and, yes, they think different!

The biker culture began late for Australia, however, it didn't take long for clubs to evolve into a worldwide presents and begin making money. So the evolution of clubs worldwide. It didn't take long for Australia to catch up.

This history/fiction begins with a few friends who liked to ride motorcycles, but, before they could own or even hope to own a motorcycle, they had to shovel s***, s*** for everyone's garden they knew, and a few

they didn't know. The first thing this fledgling club noticed was the Harley Davidson motorcycle. Their Brit bikes couldn't compare. They had to have one and the story begins.

All new clubs go through a growing process. They haven't yet figured out what to do or how to do it! This fiction novel tells the story of three, maybe four quasi friends that started a brotherhood and maintained that brotherhood as they grew.

Yes, they sold drugs.

Yes, they sold parts from motorcycles.

In the day that is how it was done!

The disclaimer for this book says it all:

“This is a true account of the birth of outlaw motorcycle clubs in Australia. All names have been changed, and identities and events obscured.”

That makes this book fiction –

It's written like a novel, dialog and all. How could you possibly remember the exact conversation of anything forty some odd years ago?

It may be based on history, but if you don't know the history, it's all fiction.

Well written

By Nins

Well written! Got me hooked from the beginning!! Scary stuff though, but good insight into how 'other' people live their lives.

This is the best book yet on the Australian biker "bikie" scene

By Justin

This is the best book yet on the Australian biker "bikie" scene. This does not just read like a police blotter sheet as many books in this genre do. My only gripe is the changing of the club names. Having read much about the Australian bikie scene it was not hard for me to figure out who was really who. Figuring this out was actually kind of fun, but I think it took away from the overall impact of the book. That being said, I understand completely why the author would choose to do this as he is still an active club member. I just wish he had come up with a cooler fake name than the Miners for his club.
